## CONSULTING

**Experts in  
Cybersecurity  
Operations &  
Solutions**

## WE ENABLE MISSION SUCCESS

### Why Choose Us?

We deliver mission-focused, practicable, and actionable solutions for complex cybersecurity problems.

We leverage cyber tool investments to enable meaningful data analysis across disparate data sources. .

We currently support customers at USCYBERCOMMAND, USARMYCYBER, USAIRFORCECYBER, USMARFORCYBER and USCB (2020 Decennial Census).

### Capabilities

#### *Defensive Cyber Operations*

- Blue Team
- Purple Team
- Security Monitoring
- Incident Response
- Attack, Sensing, & Warning (AS&W) Analysis
- Cyber Threat Intelligence Analysis
- Threat Hunting

#### *Offensive Cyber Operations*

- Red Team
- Penetration Testing

#### *Cyber Solutions & Services*

- Data Engineering, Profiling, Standardization, & Management
- Data Science & Machine Learning
- Information Systems Security Engineering
- Software Development
- Systems Architecture, Engineering, Integration & Deployment
- DevSecOps Engineering
- Governance and Policy Expertise
- DoD Acquisition & Evaluation
- Commercial/Cloud-based Solutions
- Integration & Deployment
- Software Assurance

### Learn More:

We deliver high quality solutions and services to IC, DoD, Federal and commercial customers. IAMUS security, software, and systems engineers and architects are solving some of the nation's most complex problems in cyber analytics and data science, and infrastructure security lifecycle - from architecture, integration, quality, governance, testing, management, and analysis: all the way from concept to users' eyeballs on glass. Our cybersecurity analysts ensure the secure operations of some of our nation's most important missions through blue/red/purple teaming, security monitoring, incident response, forensics, and threat hunting.
